If Institutional:		
# of sq. feet.	_____	_____
# of students, employees, or members	_____	_____

A T.I.S. provides potential land development applicants with a site-specific list of typical requirements and public improvements relating to County roads, but does not constitute all possible requirements. The T.I.S. report must be completed before the applicant submits a Land Development Application. The completed T.I.S. report is considered part of a complete Application for all development that generates 40 A.D.T. (4 or more lots, etc.)

Submit **Fee** (Please refer to the current copy of the Current Planning fee schedule), this completed **request form**, an **11" x 17" reduced site plan showing all access points**, and an **8½" x 11" photocopy of the current tax map** indicating all subject properties to Teri Heino, Assistant Planner, in Current Planning Services. Please remember to stake all access!

NOTE: Please allow at least 8 weeks for processing.

The applicant may be required to submit an Access Report (to assure safe function of the site's access) if the project generates >500 trips per day. If required, the Access Report must be accepted by a County Traffic Analyst, (503) 846-7950, before submittal of a Land Development Application (allow approx. 10 days for review).
